

Pioneering insulated panel technology.

September 23, 2008

Metl-SPAN has revised and expanded the green/LEED® support information sheets to a comprehensive brochure titled Environmentally Smart. This brochure was developed especially for architects, specifiers, and design professionals. Environmentally Smart provides help analyzing sustainability benefits. It summarizes the attributes and performance criteria of insulated metal panels relative to qualifying for credits within the US Green Building Council's Leadership in Energy and Environmental Design (LEED) Green Building Rating System and other programs like Energy Star.
